Description This test case tests basic Shopping List features both for Product card on Home Page, and Shopping List features as well for single product.

Test Steps	Test Steps Description	Expected Result
1	Verify Shopping List on Homepage	Shopping list is empty, shows 0
2	Click on the Shopping List	Shopping list' text is present in upper section with 'X' button and 'Manage' links working. Product section is empty Est. total price is zero.
3	Close Shopping List menu with 'X' button	Shopping List is closed, Tester is back at Homepage
4	Choose a product (Product 1) presented on Home Page (for example at 'Always low prices' section). Product 1 has "About X lb each" text. Verify that product information is displayed.	Product card displays correct product information, including product name, price information, and "About X lb each" text. "Add" button is available. Product type is displayed (e.q. 'Meat & Seafood')
5	Click "Add" button for Product 1.	On the product card 'Add' (+) and 'Remove' (Bin icon) buttons are present. Correct quantity is shown: '1 ct'. 'About X lbs' text is shown correctly 'Final cost by weight' text is present
6	Verify Shopping List on Homepage	Shopping List counter is updated and shows the correct number of selected products (1).
7	Click on the Shopping List	Tester is navigated to Shopping list
8	Verify Shopping List menu and product elements	Shopping list' text is present in upper section with 'X' button and 'Manage' links working. Under 'Shopping list' text Product type is displayed (e.q. 'Meat & Seafood') correctly for Product 1. Under product type (e.q. 'Meat & Seafood') : Checkbox, image of correct product, product name, price, quantity ('1 ct') is presented correctly. If product has 'About X lbs' text in Home Page, same text is presented. Est. total price is presented at lower section correctly.
9	Close Shopping List menu with 'X' button	Shopping List is closed, Tester is back at Homepage
10	Verify Product 1's status at Homepage	Product 1 has '1 ct' card above it
